

Clearview 6200 Series

The 6200 series is manufactured of high quality extruded PVC material, providing an energy efficient patio door which is an ENERGY STAR Qualified product. The newest PVC product line has been engineered for increased frame strength with a deeper frame design and improved water infiltration resistance. The 5-7/8" frame allows for ease of installation and caulking application when replacing older sliding doors. The newly designed sill threshold supplied with a stainless steel panel track, and a unique drainage system will provide years of easy gliding and performance.

Standard Features

- Extruded PVC vinyl frame best resists transfer of heat and cold, will not warp, split, or rot.
- The vertical stiles are reinforced with aluminum or galvanized steel for added strength.
- Two tandem Acetal Precision Rollers will provide years of quiet and smooth operation.
- Aluminum frame screen with fiberglass mesh, with four adjustable steel rollers.
- Standard powder coated durable handles, with mortise style locking system.
- Unique chambered sloped sill to ease water run off, with stainless steel panel track.
- Standard height knock down doors are fully reversible, can be assembled to slide left or right.
- Glass is fully tempered and sealed units standard with Low Emissivity Coated glass, Warm Edge Spacer, and Argon Gas.

Performance Ratings

Standard Classification	NAFS 11 LC-PG30	NAFS 11 LC-PG40
Air Infiltration	A3	A3
Water Infiltration	400 Pa	400 Pa
Windload Resistance	1440 Pa (30 Psf)	1920Pa (40 Psf)
Ease Of Operation	PASS	PASS
Forced Entry	GRADE 10	GRADE 10
Condensation Resistance	58	58
